# Frontend Web Development (Vue.js) Internship

Remote

Full-time up to 3 months

Unpaid

## Are you a student in the field of web design & frontend development looking to gain experience in a dynamic tech start-up?

At CoBenefit, we work on realising the vision of sustainable cities in which citizens generate more energy with their houses than they consume and in which the energy infrastructure has been completely converted to renewables. This should benefit citizens as well as local authorities and businesses. With this approach, we want to build a high-growth company that supports local actors across Europe in climate protection initiatives.

In collaboration with the Green Finance Institute and 20 partner companies, we are implementing pilot projects in the UK in the coming months. In addition, a pilot project is currently taking place in Germany, further projects are planned. We are also working closely with the EU Stronghouse project and its partners to tap into further European markets to build a foundation for our future growth. In doing so, our focus is on retrofits in the building sector, solar energy and infrastructure development for electric mobility.

## What do we offer you?

- ✓ Flexible working hours
- ✓ Intellectual and personal growth
- ✓ Opportunities to develop your professional career
- ✓ Young, dynamic and supportive team
- ✓ International work environment
- ✓ Chance to help make sustainability accessible
- ✓ Get introduced to different markets and technologies
- ✓ Being part of a growing tech start-up

## What are we looking for?

*Intern in web design & frontend development (full-time, up to 3 months)*

We are looking for university or college students who want to be part of the creation of a novel, inspiring product and leave their fingerprints. Our new team member should enjoy the interface between UX/UI design and its implementation. Moreover, a strong hands-on mentality is required to actively contribute personal ideas.

We are a small team with a focus on individual responsibility and rapid development. If you are a self-motivated and skilled student with an interest in the development of novel online platforms, we want to talk to you. Please note that this is an unpaid internship.

## Scope of activities:

- ✓ Help build our online platform and new features
- ✓ Develop a beautiful dashboard in collaboration with engineers
- ✓ Work independently on projects and get supported by experienced developers
- ✓ Develop a well-tested and clean application

## Preferred qualifications:

- ✓ Good knowledge of HTML, CSS, JavaScript
- ✓ Ideally you have good knowledge of PHP
- ✓ You enjoy working with frontend frameworks (Vue.js)
- ✓ UX & UI design experiences
- ✓ Sense of individual responsibility and self-learning dedication
- ✓ Excellent communication skills and a true team player mentality
- ✓ Fluency in English

*At CoBenefit, we believe in diversity and therefore welcome all applicants regardless of gender, background, sexual orientation, or beliefs.*
